

Shamiso + Feature.fm Partnership Proposal

The purpose of a partnership between Feature.fm and Shamiso is to provide value to artists, Shamiso, and Feature.fm through a connected marketing and distribution offering that follows artists as they grow. The partnership will provide artists with a seamless and integrated marketing suite while increasing customers acquisition, retention and revenue for both Shamiso and Feature.fm.

Partnership Elements

- Shamiso utilizes Feature.fm API as a quick and light marketing solution for artists to market both upcoming and already released music.
- If Shamiso Artists are in need of more advanced marketing tools, they can “upgrade” to Feature.fm’s marketing tools powered by Shamiso’s connection.
- Artists are able to connect their Shamiso Account to Feature.fm with an Single Sign-On/oAuth log in solution.
- Once artists connect their Shamiso Account to Feature.fm, they will automatically have all pre-saves, smart links, bio links, and tour links (if possible) created for them in their own FFM Accounts and have access to the full Feature.fm marketing suite and features.
- All landing pages for Shamiso artists in FFM can maintain Shamiso branding in the URL as well as include clickable “Shamiso” visual branding on the landing pages that link back to Shamiso.
- Shamiso can pull marketing analytics from Feature.fm back to Shamiso, including from links and pages that are not automatically created such as contests, short links, unlock pages, and podcast links, to display marketing data alongside your streaming and distribution analytics.
- Shamiso will earn a revenue share from Feature.fm for all revenue spent by customers through this integration
- Shamiso may access and utilize all data generated across Shamiso generated links, including retargeting data generated by links

Why it's good for everyone

For Artists

- **Enhanced marketing services:** Artists are provided with access to a full and advanced marketing suite that is “powered by” their Shamiso account.
- **Automation connected to Shamiso:** A seamless experience for artists where their marketing campaigns and landing pages are automatically generated for them.
- **Better data:** Artists get a fuller picture of their data by seeing marketing and distribution data in one place.
- **Artist success:** This partnership promotes the growth of artists and their need to grow into smarter marketing strategies that build their careers while maintaining their relationship with Shamiso.

For Shamiso

- **Customer acquisition:** This offering encourages more artists to use Shamiso because they know they will have access to an integrated marketing solution if they need more advanced marketing tools.
- **Reach:** All landing pages will still have Shamiso branding, driving traffic back to Shamiso from potential customers.
- **Customer retention:** Connecting two premium services (distribution and marketing) to each other, it creates a very sticky connection of distribution, sales, marketing and CRM.
- **Recurring Revenue:** Shamiso will enjoy **additional recurring revenue** being driven by upselling customers to more advanced marketing tools and earning a recurring revenue share.
- **Marketing data access:** Cross data between streaming engagement and off-streaming marketing engagement of fans. Better identify talents, opportunities and fan engagement across more channels.

Feature.fm

- **Customer acquisition:** Customers will be exposed to Feature.fm’s marketing offering
- **Customer retention:** By connecting two premium services to each other, artists are more likely to continue using both Shamiso and Feature.fm

- **Revenue:** Additional customer acquisition allows for revenue growth of both companies.

The Feature.fm Marketing Suite

Feature.fm is the leading marketing suite for independent artists, labels and distributors creating landing pages for nearly 300K artists in 2022. Feature.fm offers a full suite of marketing campaigns designed around Marketing, Advertising, CRM, and Analytics.

Key Products and features available to Shamiso Artists:

Below is not a full list of all products and features, but gives a comprehensive list of the added value delivered to artists by taking advantage of a full marketing suite in a way that may be shared between Shamiso and Feature.fm

- **Pre-Saves**
 - On Spotify, Apple Music, Tidal, Deezer, SoundCloud and Amazon Music (More major DSPs coming soon)
 - Pre-Saves convert automatically to smart links on release day and can even convert per time-zone with Local Release Pre-Saves
- **Music Smart Links**
 - Automated music smart links that automatically find artist music in music services
- **Artist Link in Bio**
 - Link in bio solution for artists to drive traffic from social media profiles
 - Ability to embed media from popular music services
 - Include actions where fans connect their streaming service account and share their email address
 - Automatically pull in links to their Feature.fm landing pages like existing pre-saves, smart links, tour links, contests, etc
- **Tour Links**
 - Automatically finds artist tour dates and creates a tour page to share with fans to buy tickets
- **Contests**
 - A full contest offering where artists can create giveaways with prizes
 - Fans earn entries for taking actions like following, saving, pre-saving and more
- **Unlock Pages**
 - Artists offer an instant reward for fans taking actions like following, saving, pre-saving, etc
- **Podcast Links**
 - Links for artists who have podcasts to drive fans to their content in podcast and audio services
- **Short links**

- “Bit.ly” style short links that shorten and track any URL to send fans directly to a destination
- **Email collection & SMS**
 - The ability to embed an email collection or SMS/WhatsApp forms on any Feature.fm landing page
- **Audience CRM**
 - A CRM dashboard to collect, sort and segment fans who have shared their email address
 - Sort and segment by fan behaviors, preferred streaming services, follower counts and more
- **Ad retargeting**
 - Share all data with ad platforms like Facebook Ads, Google Ads, TikTok Ads and Snapchat Ads to target ads based on fan behaviors across landing pages
- **Analytics & Artist Dashboard**
 - Feature.fm’s advanced, real-time analytics help artists understand all fan behaviors across their marketing pages.
- **Sponsored Songs**
 - Feature.fm’s flagship ad unit that can be purchased directly inside Feature.fm
 - Currently integrated with Audiomack, Deezer and 8tracks, artists can boost their music through sponsored listening to fans in their target audience directly inside of these streaming partners.
- **Additional features:**
 - **Geo-aware pages** - Pages may have different stores or store order, text, and languages based on fan locations and preferred languages
 - **Integrations:** Artists can automatically sync their fan email addresses to their email platform like Mailchimp or ActiveCampaign.
 - **Spotify Multiple Follow** - In addition to getting “pre-saves” artists automatically can have their artist profile followed as well as up to 2 other assets like playlists or users in Spotify.
 - **Design customization:** Artists have full control over design elements like backgrounds and images, preview sources and button and title texts.
 - **Sub-domain branding:** Artists may add custom sub-domains to their URLs, even while the hostname maintains Shamiso branding.
 - **Custom domain:** Shamiso hostname to be used on links created via API
 - **Custom branding:** custom favicon and hyperlinked logo
 - **Custom stores:** In addition to hundreds of stores already in Feature.fm’s, artists can add any custom stores to their landing pages.
 - **Marketing channel links:** Allows artists to track exactly which of their marketing channels drives results, such as Facebook compared to TikTok.

Premium API Access

Access for distributor:

1. In order to create Pro Links in each JWT account, Shamiso must pay our API price
2. This allows Shamiso to create Pro Links with retargeting and affiliate
3. Shamiso will have API access to also show the links in the Shamiso platform and pull pro analytics into the product.

In the Feature.fm product:

1. All links created by the API are Pro Links, however
 - a. Users can not edit the API created links unless they upgrade
 - b. Users see 7 days of analytics data unless they upgrade

Economics:

1. Shamiso pays Feature.fm the API price of \$500/mo

Contest & Action Pages API Access Add-On

1. As an optional add-on, Contest & Action Pages may be turned on at any time during the term of the partnership
2. These pages allow Shamiso clients to drive specific actions on certain DSPs (Action Pages) or create incentive-based contesting to optimize social and/or streaming growth (Contest pages)
3. Pricing: \$500/mo

Pre-Save Notification API Add-On

4. As an optional add-on, Pre-Save Notifications may be turned on

5. The feature allows fans to receive notifications once pre-saved music is released and added to their library

- a. Email notifications are relative to the DSP on which the fan pre-saves
- b. Can be turned on for white label partners

6. Pricing: \$500/mo

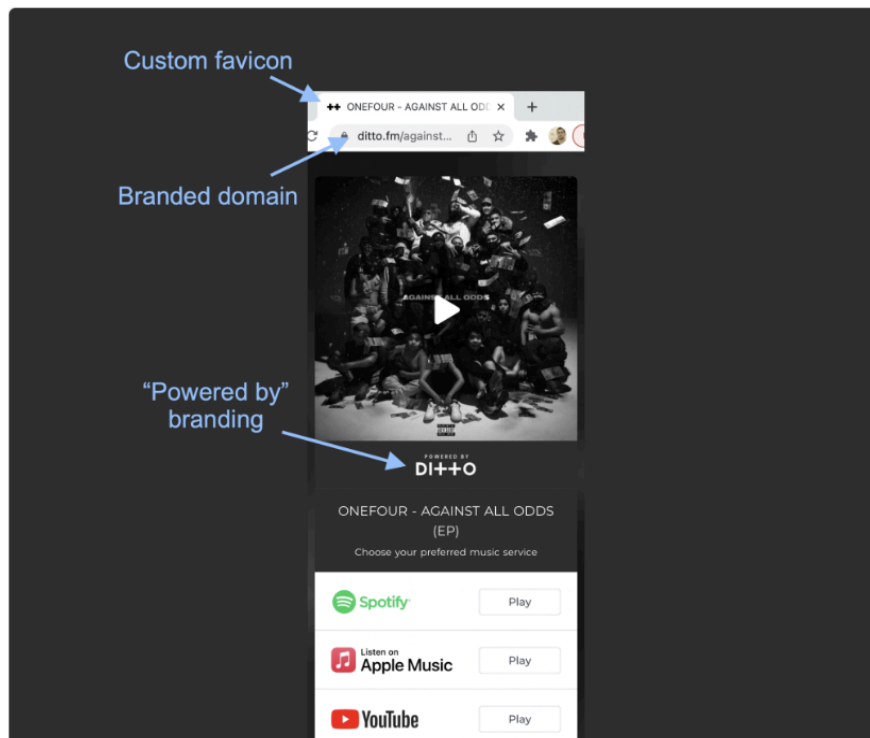

- a. Includes 10,000 Emails/mo
- b. \$0.05/Email after 10k

Custom Branding Add-On

1. As an optional add-on, custom branding may be added to all public landing pages

2. The custom branding allows you to maintain brand recognition across all landing pages that are shared online and includes:

- a. “Powered by” graphic with your logo and links back to your site.
- b. Custom favicon
- c. Branded domain
- d. Pricing: \$1000/year

CONFIDENTIAL - FOR INTERNAL USE ONLY
